Ahin Roy

Curriculum Vitae

CRANN, Trinity College Dublin
Dublin-2, Ireland
+353-872170230
royah@tcd.ie, ahinroy.iisc@gmail.com
Research Webpage

Experience

Aug 2019 – present **Research Fellow**, Advanced Microscopy Laboratory, Trinity College Dublin, Ireland.
Working on high-end electron microscopy of nanomaterials

Nov 2017 – Jul 2019 **Research Associate**, Indian Institute of Science, Bangalore, India.
Worked on computation, synthesis and electron microscopy of functional nanomaterials

Sep 2015– Sep 2017 **JSPS Postdoctoral Fellow**, Kyushu University, Fukuoka, Japan.
Worked on functional nanomaterials using aberration-corrected transmission electron microscopy

Aug 2011– Aug 2015 **Integrated Ph. D Research Fellow**, Materials Research Centre, Indian Institute of Science, Bangalore, India.
Worked on synthesis, characterization and simulations of metal nanowires

Ph. D Thesis

Title Investigations of Structural and Electronic Aspects of Ultrathin Metal Nanowires

Supervisors Prof. N Ravishankar & Prof. Abhishek Kumar Singh

Awards

2017 Best Poster Award, International Conference and Annual Meeting of Electron Microscope Society of India, Mahabalipuram, Chennai

2015 Young Scientist Award in Physics, Dr. K. V. Rao Scientific Society, Hyderabad

2015 JSPS Postdoctoral Fellowship, MEXT Japan (2015-2017)

2014 Gold Award, Shell India Computational Talent Prize

2012 Unilever-RSC Science Communication Scholarship, Imperial College, London

2009 Integrated Ph. D fellowship, Indian Institute of Science, Bangalore (2009-2016)

2002 Certificate of distinction, International Australian Mathematics Olympiad

Education

2009–2011 **Masters of Science**, Indian Institute of Science,Bangalore.
First Class

Masters Thesis

Title Synthesis of ZnO-based Hybrid Nanostructures for Photovoltaic Applications

Supervisors Prof. N Ravishankar

2006–2009 **Bachelor of Science**, Ramakrishna Mission Residential College, Narendrapur, University of Calcutta.
First Class Honours in Chemistry

Skills and Expertise

Electron Microscopy: Have worked with FEI T20 and F30 TEMs for regular imaging, FEI TITAN Themis, JEOL-ARM, and **Nion** for atomic-scale and low-kV STEM. Proficient in regular maintenance (baking and conditioning) of JEOL-ARM.

Simulation: Density Functional Theory (DFT) based simulation of functional nanomaterials - VASP and SIESTA codes: expert in installation, execution and analysis

Synthesis: Wet-chemistry using hydrothermal and microwave methods, characterization using XRD, UV-vis spectroscopy, and electrochemistry using cyclic voltammetry

Projects & Funding

2019–2021 Engineering photoluminescence of Tungsten Sulfide through Doping and Electrical Biasing; Co-PI, DST-JSPS Bilateral Research Funding

2015 Three-dimensional nanoanalyses of catalytic nanocomposite by electron tomography; Fellow, JSPS Standard Postdoc Program

Outreach Experience

2017 **Microscopy at the Ultimate Limit: 'See'-ing the Atoms in Materials**, Invited talk at Meizen High School, Kurume, Fukuoka, Japan (JSPS Science Dialogue Program)

Invited Talks

Jun 2019 Combinatorial Interrogation of Functional Nanomaterials through Electron Microscopy and DFT Simulations; EMAAT International Conference, Shimla, Himachal Pradesh, India

Oct 2018 Synergistic Atomistic Simulations and Designed Experiments for Functional Nanomaterials; IIT Mandi, Himachal Pradesh, India.

Aug 2018 Functional Materials Approaching Molecular Scale: Insights from Electron Microscopy, Simulations & Designed Experiments; TIFR-TCIS Hyderabad, India

July 2017 Functional Low dimensional Materials: Insights from Atomistic Simulations and Designed Experiments; Department of Metallurgical and Materials Engineering, IIT Madras, India

July 2017 Designed Experiments on Functional Low dimensional Materials from Ab Initio Simulations; S. N. Bose National Centre for Basic Sciences, Kolkata, India

July 2017 Functional Low dimensional Materials from Atomistic Simulations and Targeted Experiments; Department of Chemistry, IIT Guwahati, India

Contributed Talks

2020 Phase and Morphology Dependent Ion-intercalation in Electrochromic WO_3; Microscopy Society of Ireland Symposium, Trinity College Dublin, Ireland

2018 3-D Atomic Structure of Ultrathin Metal Nanowires: the Cases of Au and Pt; Annual Meeting of Electron Microscope Society of India, Bhubaneswar, India

2017 Adsorption Induced Band Structure Engineering of Te Nanowires; Annual Meeting of Electron Microscope Society of India, Mahabalipuram, India

2016 NO_2 Adsorption Induced Semiconductor to Metal Transition in Ultrathin Te Nanowires; ICTAM-AMF-10, Delhi, India

2016 Atomic Relaxation in Ultrathin FCC metal Nanowires; European Microscopy Congress, Lyon, France

2015 Intriguing Atomic Structure and Semiconductor Nanowire Equivalent Sensitivity of Ultrathin Gold Nanowires; Japan Society of Microscopy Regional Meeting, Kyushu University, Japan

2014 Semiconductor-like Sensitivity Using Ultrathin Au Nanowire Sensors; Materials Research Society, Fall- 2014, Boston, Massachusetts, USA

Student mentoring

2019–till date Ms. Lucia Hughes, Mr. Tigran Simonian & Mr. Mario Villa Navas; Ph. D student, Trinity College Dublin

2018–'19 Dr. Noopur Jain: 3 first-author journal papers; Ph.D student, IISc Bangalore

2018–'19 Ms. Angana De: 1 co-authored journal paper; BS student, IISc Bangalore

2014–'15 Mr. Kanad Ghosh: 1 first-author journal paper; BS student, IISc Bangalore
